Time-Life-Books : The Illustrated A to Z Encyclopedia of Garden Plants: A Guide to Choosing the Best Plants for Your Garden before purchasing it in order to gage whether or not it would be worth my time, and all praised The Illustrated A to Z Encyclopedia of Garden Plants: A Guide to Choosing the Best Plants for Your Garden:

1 of 1 people found the following review helpful. excellent landscape referenceBy W. SjaardemaI have frequently used this book as a reference for professional landscape architecture and design. I use this book and the price and information guides from my local nurseries more than any other landscape or plant book in my library. I like it so well that I purchased a copy as a gift for my in-laws who live in a different part of the country.

This is a comprehensive encyclopedia that includes descriptions of over 2,000 ornamental and edible plants. Each plant profile includes all you need to know to grow your favorite plants such as: Hardiness zone, soil and light

requirements, mature size, landscape uses, selected cultivars and varieties, growing conditions and maintenance. This book also includes more than 1,200 full color photos, handy plant selection guides, and an illustrated gallery of beneficials, pests, and diseases to help you keep your plants in top shape.
