Clive and Glass, Charles Innes : The Illustrated Encyclopedia of Cacti before purchasing it in order to gage whether or not it would be worth my time, and all praised The Illustrated Encyclopedia of Cacti:

1 of 1 people found the following review helpful. Very informative and lots of nice pictures.By MaryannI got this for my cacti collecting sister. She loves it and has been able to identify some of the succulents and cacti she has with it. Very informative and lots of nice pictures.0 of 0 people found the following review helpful. Five StarsBy benj !cool book everytime i open it i find a new cactus i need for my collection !0 of 0 people found the following review helpful. In my opinion this book lists too many hybrids and ...By Bret FinsterIn my opinion this book lists too many hybrids and not enough of the original species. If it were a true encyclopedia it would at least list the ones that are actually growing in habitat.

Cacti plant family, heavily illustrated with descriptions
