Hiplito Ruiz, Richard Evans Schultes : The Journals of Hipolito Ruiz before purchasing it in order to gage whether or not it would be worth my time, and all praised The Journals of Hipolito Ruiz:

Ruiz spent 11 years exploring the villages and botanical landscapes of Peru and Chile. His detailed, personal observations of about 2000 plants, along with his impressions of the culture and perils of exploration in South America, are translated here by Richard Evans Schultes, the premier ethnobotanical explorer of South America today.

About the Author Ruiz, the first botanical explorer of South America, spent 11 years visiting the towns, villages, fields, forests, and mountains of Peru and Chile.
