Philip Sharples, Steven Hayman : The Lawn Guide: The Easy Way to a Perfect Lawn before purchasing it in order to gage whether or not it would be worth my time, and all praised The Lawn Guide: The Easy Way to a Perfect Lawn:

1 of 1 people found the following review helpful. The Keen GreenkeeperBy Ioannis J. StoupisThis is a great book about lawn maintenance, from which lawn to use, when to add soil, which season and when to water and for how long, also includes disease in grass including insects and how to go about fixing the problems. For me it is an A-Z guide, the all you need to know guide. A must have for any keen grass lover who wants their lawn to be healthy, lush and happy all year round.0 of 0 people found the following review helpful. pretty goodBy Amy KaneGood basic book on lawn care. Could use more emphasis on care in particular regions. Overall, I enjoyed the book.0 of 1 people found the following review helpful. Informative yes, but not a fun readBy silvermanaThe book gets across the information, but it wasn't the most exciting read. I was hoping for something with a more informal tone (e.g. tales of an obsessed lawn man). It is also lacking on pictures in many places where imagery would add a lot of value.
