I think it would be perfect for someone who's on the fence about witchcraft and magic, or someone just starting off. This is the first book I've read by Scott Cunningham and I now understand why he's so popular.0 of 0 people found the following review helpful. I am looking forward to working with a bunch of the spells written in this book, especially ones that protect my home from negative energy and entities, the use of symbols, mirrors, witch salt, etc. Scott Cunningham has written many useful, well written books on a variety of topics, many of which I own and plan on purchasing. This book is a must for witches just starting out on their magical path. You won't be disappointed.3 of 3 people found the following review helpful. Houses of GraceBy Janice VincentThis book is interesting for its look into the historical foundations of household magick, and really households in general--the underlying grace of owning a house and being able to do anything with it to make it yours. If you've lost a house, as many of us have, this book might or might not be a catalyst in recovering from that loss: be aware that this is a book about living in grace in a fine place of your own design and making--and the pure energy that comes with it.

Recognize and celebrate the magic of life with timeless rites and spells. Create a magical household a haven of harmony, safety, spirituality, security, and romance. The benefits include a happier existence, protection against thieves, improved health, restful sleep, satisfying spiritual experiences, and a perfect environment for positive magic. This warm and wise guide by much loved author Scott Cunningham has been helping people create sacred space in their homes and gardens for nearly twenty years.

From the PublisherFrankly, I'm surprised nobody wrote this book sooner. There are many books about the magic in places all over the world, but leave it to Scott Cunningham and David Harrington to write a book about the magic in the place where you spend the most time: your home. The Magical Household is so rich with information about everything from purification to protection that I hardly know where to begin. Every part of your home, inside and outside, is covered in this book. Outside are the garage and garden, windows and doorways. This book gives you ways to bring in the good health, love, peace, wealth, friends and keep out the bad disease, accidents, poverty, unwanted intruders. Magical tips are given for each room inside the house, too. Rituals, incenses, and techniques to provide you with what is needed in your life are described. Whether it is the kitchen or living room, bedroom or den, you will find magical advice and folklore that can bring magic into your life. Sometimes the magic is as easy as moving furniture and hanging an herb above a door. Other times it might be a brief rite combined with candles of a particular color. It's all described here. The information comes from all over the world. Some comes from Europe, other pieces come from Asia, Hawaii, and even ancient Egypt. The book is serious, but it is also fun. Scott and David write so well that it seems more like they are talking to you than writing a book. The Magical Household is for anybody who lives anywhere. That means me. That means you. So right now I'm going to lean back in my oak chair, get up from my teak desk, go over to an oak bookcase and go through this book again. That's where you'll find what these different types of wood can magically provide. This book is a gem! About the AuthorScott Cunningham practiced magic actively for over twenty years. He was the author of more than fifty books covering both fiction and non-fiction subject matter; sixteen of his titles are published by Llewellyn Publications. Scott's books reflect a broad range of interests within the New Age sphere, where he was very highly regarded. He passed from this life on March 28, 1993, after a long illness. David Harrington lives in Chula Vista, California and has a long-term interest in the mysteries of household magic. ~
