**From Brand: Running Press Miniature Editions : The Mini Bonsai Kit (Miniature Editions)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Mini Bonsai Kit (Miniature Editions):

The best part of the kit is the jack pine seeds, and the instructional booklet. The booklet goes into far greater detail about the science and art of bonsai than I'd expected, and seems to give good advice on the care and shaping of a tree. I planted my pine seeds a couple of weeks ago, and the first one sprouted today, so there's at least one viable seed out of the five provided.0 of 0 people found the following review helpful. Time for shippingBy CustomerGreat product! Bought it as a gift and it was well received. BUT shipping took forever! Ordered on November 1st and received on November 29th, more than a week after the latest "expect by" date.0 of 0 people found the following review helpful. Five StarsBy karinaBuen producto
