So stupid it's funnyBy KrisI have to say I love this item. It works as stated, I mean, how badly can you mess up grass. I love it because it is hilariously stupid. Someone comes by and sees this and laughs, especially when I use the little included scissors to cut the grass. Worth the money for the laughs. So much fun.

This unique Mini Kit is just the thing for anyone who's seeking a bit of Zen tranquility. Within the triangular box are seeds, potting materials, trimming scissors, and a 32page book that explores both the soothing properties of ornamental grasses and how easy it is to grow and maintain them.
