Toby Musgrave, Will Musgrave, Chris Gardner : The Plant Hunters before purchasing it in order to gage whether or not it would be worth my time, and all praised The Plant Hunters:

0 of 0 people found the following review helpful. Okay, but not newBy GardenerFortunately, this is a short read and it does provide some details that were new to me. But this is really a redo of a often repeated book on plant hunters. So, it's a ho-hum book, probably just as good as many similar books written before, but nothing special.0 of 0 people found the following review helpful. Incredible true storiesBy dijeCould not believe the hardships of the plant hunters and the fascinating stories behind our garden plants. Couldn't put the book down! Well written and presented. Rarely have I come across a non-fiction story that so gripped and entranced me.

This is the story of the men who travelled through remote and beautiful lands, often in great peril, to collect the plants

that shaped western garden design for 200 years.
