Sue Olsen, Richie Steffen : The Plant Lover's Guide to Ferns (The Plant Lovers Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Plant Lover's Guide to Ferns (The Plant Lovers Guides):

2 of 2 people found the following review helpful. The Plant Lover's Guide to... always an excellent series!By Jorgito SimoNice reference book. Good pictures. Suggestions of use and cultivation. The other titles of this collection I gave 5 stars. I guess this book could have more interesting pictures. Although it can be easily recomended.1 of 1 people found the following review helpful. Five StarsBy jack BartaExcellent book with so many good pictures.0 of 0 people found the following review helpful. Excellent book. Better than expectedBy LHExcellent book. Better than expected.

Ferns are easy to grow and readily available in big box stores, garden centers, and mail-order nurseries, making them a popular ornamental among new and advanced gardeners. Perfect for containers, borders, layered gardens, foliage accents, and shady areas, ferns come in a range of colors and varieties. The Plant Lovers Guide to Ferns, by fern enthusiasts Richie Steffen and Sue Olsen, is packed with information on these reliable plants. The book includes profiles for 134 plants, with information on growth and propagation, advice on using ferns in garden design, and lists

of where to buy the plants and where to view them in public gardens.

Sure to get you down on your hands and knees. New York Times Book Their abundant expertise is evident in the detailed descriptionsvisually, the book is stunning. Garden Design All the knowledge these two fern fanciers accumulated over their years of study are beautifully presented in The Plant Lovers Guide to Ferns. Seattle Times This slim volume offers the pteridomaniac just the right amount of inspiration and information to keep them on track. Pacific Horticulture If you live in Western Washington and you like plants, you need this book. . . . I am so inspired that I intend to fill a single large container with my favorite ferns soon as I can decide which fern in this book is my favorite. The Daily News Dont dare open this book unless you are ready to fall in loveSteffen and Olsen have produced a lush, user-friendly book, replete with obvious expertise and a shared love for their subject. Hardy Fern Foundation Quarterly This is a book that is not just for fern lovers, but also for those who want to use the rich tapestry of foliage, color, and texture of ferns to great effect in the garden. Pteridologist
