Some things she already knew but it doesn't hurt to have a reminder. She will take it to college with her when and hopefully it will help her out when her dad and I aren't there to "fix-it"! She asked about how to do something the other day and I said, look in your book and it was there! Nice, fun little graduation gift.0 of 1 people found the following review helpful. Not like a real dadBy ChascoppThis

book left my daughter and I underwhelmed. I had already imparted most of this "knowledge" to my daughter before she left for college. There is so much more that could help the young that I was thinking about writing a similar book. 1 of 1 people found the following review helpful. Memories of Dear Old Dad By Dave Jones Even if you're handy around the house or apartment, this book will remind you of all the things you learned from Dear Old Dad. But, if you weren't paying attention, The Portable Dad will give you a refresher course. Only this dad takes his time, keeps his cool and makes it fun. And he tells you only what you need to know! From keeping air in your tires and checking the oil, to buying must-have tools and painting your first room, to hanging pictures and fixing that running toilet, this book will help you successfully make the transition from living in HIS house, to living in YOUR house. Oh, and he tells you when something might be a little too tough to handle by yourself. In which case, you might want to give Dear Old Dad a call!

For college students, twentysomethings, and anyone else who keeps Dad on speed-dial for car emergencies, plumbing woes, appliance advice, and more. Take Dads know-how with you everywhere you go! This Dads got all the answers to all the basics, so that you can get it done and move on. He knows how to hang, unclog, patch, drill, paint, mow, lube, edge, weed, sand, pack, and more. The Portable Dad is the answer to those panicked late-night phone calls: how to keep things running, how to maintain the stuff you use, how to get by without getting in over your head. If Dad doesnt know the answer, you dont really need to do it!
