purchased it so I would always have a hard copy to pull off my bookshelf. 2 of 3 people found the following review helpful. NOT IMPRESSED By Jo-Ella Mullins The more I read, the less interested I became. Very in depth chapters for each specific topic. Some provide a bit more information than you need if you are a seasoned prepper. The writer went overboard explaining each topic - a good example was explaining how a toilet works and the importance of having a good wax ring seal. This book was dissapointing for me as I expected more information that would prepare one in an urban setting. 5 of 7 people found the following review helpful. If you don't have it, get it. By K. A. Lebherz-Gelinas If Katrina and Sandy don't wake you up, nothing will. If you don't want to be caught in a disaster unprepared, grab this book and commence reading.
