Elspeth Bradbury, Judy Maddocks : The Real Garden Road Trip before purchasing it in order to gage whether or not it would be worth my time, and all praised The Real Garden Road Trip:

0 of 0 people found the following review helpful. Tiny printBy dvThe book is well worth purchasing but the print is too tiny. I would not recommend as there is no getting around the print. Even the pictures are small. I am struggling through because I know it will be worth reading if you love gardening.

From the lighthouse garden at Point Atkinson, British Columbia, to the long-vanished survival garden at Cape Spear, Newfoundland, Bradbury and Maddocks are entertained by more than 80 "ordinary" gardeners.
