Chilson D Aldrich : The real log cabin before purchasing it in order to gage whether or not it would be worth my time, and all praised The real log cabin:

0 of 0 people found the following review helpful. Five StarsBy Timothygood book all info is there but believe it is a reprint

This is one of the most comprehensive books on planning and building a log cabin. Topics include choosing your type of cabin; how to lay logs; constructing fireplaces; developing windows, doors, flooring, and cupboards; building porches terraces, and balconies; finishing the logs; and addressing log cabin furniture. Well-written, plenty of clear photos and drawings. A fascinating book.
