H. H. Davidian : The Rhododendron Species: Azaleas before purchasing it in order to gage whether or not it would be worth my time, and all praised The Rhododendron Species: Azaleas:

0 of 0 people found the following review helpful. Three StarsBy frankThe book lacked the color plates that I expected , delivery was on time and efficient.

The 104 species of azaleas are here classified into five subseries, with keys. The full-size line drawings aid identification; the color photographs show azaleas in their native habitats and in cultivation.
