**H. H. Davidian : The Rhododendron Species: Elepidotes Continued (Neriiflorum - Thomsonii, Azaleastrum and Camtschaticum)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Rhododendron Species: Elepidotes Continued (Neriiflorum - Thomsonii, Azaleastrum and Camtschaticum):

A complete taxonomic and historical account of the cultivated species of "Rhododendron, with keys for identification of the series and species. Its scope and thoroughness, the fruit of more than 40 years' research at the Royal Botanic Garden, Edinburgh, are incomparable.
