From Frances Lincoln : The Royal Horticultural Society Plant Notebook before purchasing it in order to gage whether or not it would be worth my time, and all praised The Royal Horticultural Society Plant Notebook:

Fitting easily into a pocket or handbag, this is a handy notebook in which gardeners can make notes about plants of interest. Owning this book will put an end to jotting down plant names on the backs of old envelopes.

Just the thing to slip into a bag or pocket when you go to a new garden or nursery Times With gorgeous botanical illustrations the RHS Plant Notebook is far nicer than a grotty scrap of paper! IndependentAbout the AuthorDr Brent Elliott is librarian and archivist to the Royal Horticultural Society and author of numerous articles and books. He has written introductions and captions to the RHS diaries since 1993.
