It covers all aspects of personal threat and how to prevent them, or survive them. It also addresses our concern for our loved ones, especially our children. How can we prepare them to know how to take care of themselves and others?I especially appreciate the fact that Wygand has extensive and professional training in this field and speaks from experience. It gives me confidence that having read this book, I am indeed well prepared to safely inhabit the contemporary urban environment of most cities on the

planet. Rather than falsely leading us to believe that there is a magic wand the waving of which will surround us with impenetrable defenses, he meticulously teaches us how to become more aware of what is happening around us and tells us what to look for in order to take evasive action and avoid the trauma of encounter. He also teaches us how to survive a surprise encounter, if it does occur. Everyone owes it to themselves to read Wygand's reasoned and sage advice in order to enjoy the peace of mind that we all hope to abide with in our lives.

Roughly 80% of the world's population now lives in urban areas. Cities offer anonymity to violent criminals as well as to those who value privacy. New digital technologies allow purveyors of hatred and assorted smut to enter our homes and pedophiles use the Internet to bait our children and victimize them. This book is designed to provide you with a tested methodology for being secure in the concrete jungle without slipping into paranoia or denial. You don't have to be a just another crime statistic!

About the Author Jim Wygand has provided seminars on personal security to companies, diplomats, government security personnel, schools, families and individuals for the past 12 years. He has been involved in the negotiation of several kidnaps and has written numerous articles and monographs on the issue of personal security. His method for avoiding violent crime is based on the same techniques employed by law enforcement, CIA, FBI, diplomatic and military personnel, to recognize and deal with possible danger. He has a strong personal reason for writing this book and he wants YOU and YOUR FAMILY to be safe.
