I always keep a record of new changes I do to the rooms in my house. Down to the paint on the walls and every new thing that is brought for that room. I have before and after results that will be placed in the book this is also good information that can be forwarded on to the Homeowners Fire Insurance Company. Thanks.0 of 1 people found the following review helpful. DisappointingBy Rainwood GraceThis book was a total disappointment and I wish I had looked it over right after I got it but I have a bad habit of not opening boxes right away (in fact, sometimes it takes months or years to get to things - I don't know why I do that). I should have sent it back. I put it in the garage sale and nobody wanted it. It was full of mostly unnecessary or inapplicable details you would only want to fill out if you had nothing better to do. Maybe if you were starting out with a new home you could tolerate it but you'd only use a fraction ot it. And the pages were difficult to turn and organize. I hate it and it is now in the donation box

As a homeowner who does most of the renovating/decorating of my own home and also as a rental property owner who does most of the work myself this book has been a God-send. I used to have so many lists that when it came time to buy something I could never find the right list or the right measurement. Now it's all in the Sidekick, a book that's easy to carry into the stores with me. I keep it handy at all times. When I work on the rental properties I have it with me so that I can record measurements, draw sketches of plans etc. I have two books right now and plan on buying a couple more so that it can accommodate the number of properties I own/manage. Thank you Diane for a great idea and a great book. This book should be in every home.

Everyone needs a home organizer and this one has a place to record everything you need to know about your home. Avoid the "Where'd I put that headache?" If you have ever purchased anything in the wrong size for your home, mixed the wrong color paint, lost a receipt, or made more than one trip back and forth to the store because you have the wrong measurements, then this is the book to use! With the Sidekick you'll always know where and when you bought it, and how much you paid for it and the receipt is right there in the appropriate room section! You'll wish you had this book years ago, but it is never too late. Even if you're buying something as simple as a new pillow for your couch, you'll have the colors of the surrounding room with you - maybe even a picture - and you won't be mistaken! The easy to carry Sidekick includes: *18 tabbed sections; one for every room, including Decks Porches, Laundry, and Heating and Cooling plus a blank section to use as you like. *Clear, resealable pockets to hold receipts, fabric samples, paint colors, anything you need - and they won't fall out. *Appliance and furniture purchase records section for each room. *Great tips and ideas throughout the book. *Website resources and directory. *Insurance property checklist for entire home. *Graph pages for each room.
