James Grayson Trulove : The Smart Loft before purchasing it in order to gage whether or not it would be worth my time, and all praised The Smart Loft:

0 of 0 people found the following review helpful. Five StarsBy WEGreat book.

What makes a loft smart? This book presents the extraordinary designs of recently completed lofts that highlight three kinds of smart solutions. Through smart technology, a variety of electronic devices attend to your needs while in the loft, and carry on a variety of necessary functions while you're away. Smart materials provide solutions through newly invented building materials and innovative twists on traditional ones. And smart design is used by ingenious architects with difficult design challenges to transcend these problems and create spectacular lofts, often on a very modest budget.

About the AuthorJames Grayson Trulove is an author, publisher, and editor of books on the subjects of architecture, landscape architecture, and garden design. His recent books include *New Sustainable Homes*, *25 Apartments and Lofts Under 2500 Square Feet*, and *Prefab Now*. He resides in Washington, D.C., and New York.
