A beautiful discussion of the soul-enriching wonders of gardeningBy Midwest Book ReviewJournalist and award-winning writer Donna Sinclair presents The Spirituality of Gardening, a beautiful discussion of the soul-enriching wonders of gardening. Chapters discuss gardening as connection, balance, memory, healing, hope, spiritual practice, and resistance throughout the ages, and the beautiful full-color photography throughout illustrates breathtaking close-ups of flowers and wide-angle views of trees at sunrise and sunset. The thoughtful text reflects upon the author's personal awakening through gardening, ancient parables, the bounty of the earth, being thankful for the joy of life, and more. The Spirituality of Gardening is not a practical how-to book, but rather an inviting treasure especially for gardening and book lovers, to be savored for personal inspiration and reflection.6 of 10 people found the following review helpful.
