0 of 0 people found the following review helpful. beautifulBy Jacob NiIl was pleasantly surprised to see how thorough

this book was. If you are just starting to learn about the tiny house movement or look for inspiration from beautiful creations of others, this is the book for you. Its not only a how to, but a source of nice pictures of interior designs. The book offers an uncomplicated way of living in an affordable package.0 of 0 people found the following review helpful. A great readBy Joseph VasquezThis book covers all of the points for people that are looking to "go Small" when it comes to living. I think the "tiny house" movement is going to become huge. This book covers everything from the typical cost, as well as design ideas. Even if you are not looking into a smaller living space, this book is full of useful information0 of 0 people found the following review helpful. I hated paying so much for a little apartment!By RedI live in a City where housing is very expensive. Although I got a relatively big apartment it looks so tiny because nothing is in real order. This Book showed me how to get almost everything done: The Pros and Cons of a tiny house, wether to buy or build a tiny house and also how to get a system in this little bit of space. I am very impressed and can promise you that this book will change your live drastically.

If You are ready to move on and start saving thousands of dollars on your monthly house expenses, this is the book to read! Are You tired of mortgage payments? Do You want to feel independent? Here is a workable solution for your budget!
