Two Stars By WHITEPANTHER Not so hot, really, it is not really worth the cost. 0 of 0 people found the following review helpful. Fix it book By Terri I watch a lot of "fix it" shows, so I have already learned a lot. But I bought this for my daughter so she could do small projects around her home. If you know nothing about repairs then I would suggest this book.

An easy-to-use and exciting new home repair guide for women by a woman.
