Michael Lavelle : The World Encyclopedia of Wild Flowers and Flora: An authoritative guide to more than 750 wild flowers of the world. Beautifully illustrated with over ... watercolours, photographs and maps before purchasing it in order to gage whether or not it would be worth my time, and all praised The World Encyclopedia of Wild Flowers and Flora: An authoritative guide to more than 750 wild flowers of the world. Beautifully illustrated with over ... watercolours, photographs and maps:

0 of 0 people found the following review helpful. Fantastic Flower BookBy rkahnThis book is a very cheap and thorough encyclopedia of wildflowers and other flora. It has great illustrations and welldocumented descriptions of the plants that are listed. If you want to know more about this subject, you could not do better than to get this book.

A stunning visual guide to more than 750 of the most important wild flowers, trees, shrubs, herbs, cati, grasses, mosses, aquatic plants and weeds.

About the AuthorMichael Lavelle is a committed environmentalist and a keen observer of nature since his early childhood in Lancashire. Michael studied horticulture at Askham Bryan College in York and environmental management at Wye College in Kent. He worked as a professional landscaper before starting a career as a horticultural lecturer in the early 1990s. Michael has designed and constructed several educational exhibits at the Chelsea Flower Show, achieving prestigious gold medals in 1999 and 2003. He currently works as a senior lecturer in landscape management at Writtle College in Chelmsford, England and won the Guild of Garden Writers Award in 2000 for his book, Organic Garden.
