From Icon Group International, Inc. : The World Market for Seeders, Planters, Transplanters, Fertilizer Distributors, and Manure Spreaders Excluding Hand Tools: A 2004 Global Trade Perspective before purchasing it in order to gauge whether or not it would be worth my time, and all praised The World Market for Seeders, Planters, Transplanters, Fertilizer Distributors, and Manure Spreaders Excluding Hand Tools: A 2004 Global Trade Perspective:

OUR APPROACHThis report was created for strategic planners, international executives and import/export managers

who are concerned with the market for seeders, planters, transplanters, fertilizer distributors, and manure spreaders excluding hand tools. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics that appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for seeders, planters, transplanters, fertilizer distributors, and manure spreaders excluding hand tools for those countries serving the world market via exports or supplying from various countries via imports. I do so for the current year based on a variety of key historical indicators and econometric models. On the demand side, exporters and strategic planners approaching the world market face a number of questions. Which countries are supplying seeders, planters, transplanters, fertilizer distributors, and manure spreaders excluding hand tools? What is the dollar value of these imports? How much do the imports of seeders, planters, transplanters, fertilizer distributors, and manure spreaders excluding hand tools vary from one country to another? Do exporters serving the world market have similar market shares across the importing countries? Which countries supply the most exports of seeders, planters, transplanters, fertilizer distributors, and manure spreaders excluding hand tools? Which countries are buying their exports? What is the value of these exports and which countries are the largest buyers? In what follows, Chapter 2 begins by summarizing the regional markets for imported and exported seeders, planters, transplanters, fertilizer distributors, and manure spreaders excluding hand tools. The total level of imports and exports on a worldwide basis, and those for each region,
