1 of 1 people found the following review helpful. Great sourceBy TeaTotally FineI like it for a quick reference. One of the better books for Colorado beginner gardeners. Give it as a house-warming gift to those I know want to learn how to have a nice garden.0 of 0 people found the following review helpful. Four StarsBy Ellen RobertsI wish it had gone into more about fruits and things that need chilling requirements and more plant listings.2 of 2 people found the following review helpful. Tons of informationBy The Jogging YentaWhat's not to like? It breaks plants into sections - annuals, perennials, evergreens, etc. AND I bought it from a used book store, so it was ridiculously cheap!
