My ultimate goal would be to sew using cute patterns for myself or someday (I say, with sparkles in my eyes) design my own clothing. I am a very, very visual learner and I bought several beginners books, but I swear none of them are for beginners. They're like reading books in Latin. I discovered these DVDS and bought seasons 1 and 2 off the threads website. Note, that this isn't like a traditional tv show at all. It's more like a bunch of segments strung together, and of course you can pick them from the

menu. The quality is good. It's filmed well. So much stuff on you-tube is like having glasses smeared with olive oil on when you watch them. The instructor knows what's she's talking about, though her delivery is incredibly wooden. However, she's funny sometimes. Wasn't expecting that! It's not perfect. I'm such a dummy, when they were talking about cutting patterns for a project I'll never do, I noticed they didn't show how to cut out the patterns. Yes I wanted help with that. End result- watching these things explained, learning the terms, seeing how things are done, has been incredible. I pick up a sewing book and I'm halfway understanding things now. It's given me confidence. Since then I've labored over two small decorative cushions, in which i put an invisible zipper. No, that project is not on the DVD, but when you watch the techniques, boy does it help. 4 of 4 people found the following review helpful.
