Five Stars By L nGood shape4 of 4 people found the following review helpful. Excellent Book By Kimol've done tiling for several years and this book taught me things the pros did not teach me. It is well written and provides a lot of good information.

Relatively affordable as DIY projects go, tiling is also one of the most popular among homeowners. New tile can cover a multitude of sins and transform a space from tiny entry to spacious kitchen - in a matter of hours, if it's done properly. This book presents all of the information needed to take on a tiling project from start to finish, including

planning and layout, installation, and upkeep from tiling a kitchen counter or outdoor patio, to installing glass block in a shower, on a curve. From the For Pros By Pros series, Tiling delivers pro-rated instruction guaranteed to get the job done right the first time.
