Sarah Stewart : Tiny House Living: A Complete Guide to Living in a Tiny House before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tiny House Living: A Complete Guide to Living in a Tiny House:

2 of 2 people found the following review helpful. A good introductory book for absolute novices By Windflaw I liked this book because it gave me some ideas on where and how I can live. The idea to live in a tiny house is unusual and it can be an interesting decision of some problems: where to live, where to find some money for living and so on. But there is a big but. Living in the tiny house is a compromise. Often you have to live here because you can't live in a big house for some reasons. It seems to me it can be a good idea if you are single or a student. Or something like that. And I want to note you before you get this book: you will not find a lot of pictures here. In truth, here are no suitable pictures. But the book could be much more useful with pictures. That was not a problem for me because I faced this idea for the first time. But if you have studied this subject, I think the reading without illustrations could be uncomfortable for you. So if you need a good introductory book for absolute novices you can purchase this one. 2 of 2 people found the following review helpful. Good Effort By Customer Very basic, brief book which needs editing. In the section of "land," although it was acknowledged that this is the hardest part to find, how about talking about how to deal with land that has plumbing and electricity available. And if not, what to do about that. Several recent news reports indicate that tiny homes are easy to steal when built on wheels. Lots of info could have been included to make this a "complete" guide. 2 of 2 people found the following review helpful. Happy Reading. By Ruhul Amin Right now I

am living in Tiny House. I purchased the book for expand my knowledge about tiny house living. The book give me a big space in my small tiny house. The book help me to know what is the benefits of tiny house and how I will do well intro decoration in my tiny house. Also the book help me to know how to overcome the tiny house living challenge. The book all of information are very helpful.

Living the tiny house lifestyle. Have you ever wanted to know what it's like to live in a tiny home? The concept behind tiny home living is still strange according to many people. However, there is a philosophy behind it, a reason of sorts, and this book will tell you all about why this popular home living trend is now sweeping the nation, and why many are turning to this type of lifestyle instead of your traditional home. Not only that, but with this book you'll further explore how to live in a tiny home. Living in such a small space is typically the biggest turn-off from a tiny home lifestyle. Many of us love to cling to possessions like there's nothing else out there. However, within the confines of this book, you'll learn how it's possible to live this way. In this book, it includes the following: Why tiny home living How to decorate a tiny home Hacks to make your tiny home seem bigger The concept behind buying or building your tiny home. A checklist to get started on building your tiny home. Tiny home living is a newer concept, and while it might be foreign to many, it is possible. With this book, you'll learn all you need to know about downsizing your home, allowing you to live your life to the fullest without the burden of space and clutter plaguing you.
