China Press : Top Hotels Entertainment Spaces before purchasing it in order to gage whether or not it would be worth my time, and all praised Top Hotels Entertainment Spaces:

Customers are looking for more these days. Aesthetic beauty is key to attracting returning customers and patrons. This volume is a collection of over 430 pages of glossy pictures and interior decorating ideas. Venues include top notch hotels and entertainment venues. Details are not spared and the scope extended from the guest rooms to the business centres and design style span from grand to simple minimalist. A great source of reference and inspiration for interior designers.
