Beautiful Book of Landscaping Ideas and Decor for Your GardenBy silky69This is a beautiful book packed with photos of gardens and the decor ranging from plants to trees to benches, to walkways to walls, patios, lighting, stepping stones, etc.. My favorite is a page showing two garden chairs covered in moss in the wintertime... beautiful. Other pages have unusual sculptures as well as traditional sculptures. There is something of interest to anyone who loves gardens and loves to think of ways to design or add accent to their garden.1 of 3 people found the following review helpful. Garden LoversBy K. RinglandThis is a very well done book on different concepts of gardens, we have a personal interest in this book as a few of the pictures are from our winery. Beautiful gardens, gives a person some

great ideas to create their own special place.
