**James Grayson Trulove : Tree Houses by Architects** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tree Houses by Architects:

1 of 1 people found the following review helpful. Beautiful Pictures Great Ideas By Michael Skowronski I loved this book! I bought it to get ideas for some tree houses my wife and I will be building in India. It was especially helpful to us since Indians are just not used to this style of building and these pictures helped give our Indian architects a sense of what we were looking for. It is a great book to dream by too. How nice it would be to live in some of these homes. All homes should be tree houses! Michael Skowronski Author of Unforgettable: A Love and Spiritual Growth Story
