John Clark : Tree Houses: How To Build A Tree House For Cheap And Fulfill Your Childhood Dreams before purchasing it in order to gage whether or not it would be worth my time, and all praised Tree Houses: How To Build A Tree House For Cheap And Fulfill Your Childhood Dreams:

0 of 0 people found the following review helpful. No pictures. By Diana Crump Has good lists but very dull and a picture is worth thousands of words. I would get a more detailed book if you've never built before. 0 of 0 people found the following review helpful. Very Disappointing By Customer I ordered this for my Son and got the shortest book in the library with no pictures (sorry, there is a picture on the front cover) for one of the highest prices. It is going back before I am embarrassed by giving it to my Son. I would challenge anyone to build a tree house from this book. I built a tree house as a kid and I could write a better book. Disappointing. 2 of 2 people found the following review helpful. Disappointed By Harold Holland Very disappointed. Come on, really, a book about building tree houses with no pictures? I guess you get what you pay for.

One Simple Guide About Everything You Need To Know For Building The Tree House Of Your Childhood Dreams Looking for a guide on how to build your very own tree house? You're at the right place!
