**Alejandro Bahamon : Treehouses: Living a Dream** before purchasing it in order to gage whether or not it would be worth my time, and all praised Treehouses: Living a Dream:

0 of 0 people found the following review helpful. Great Book!By Dano ReddirtGreat Book!0 of 0 people found the following review helpful. Five StarsBy Glenn Fishercool0 of 0 people found the following review helpful. Given as a gift!By S. LaRoccoFun book, great pictures and plans! nice sized!! To dream of solitude is an amazing gift. Thank You!, my parents liked it!

An examination of some of the most ambitious and amazing treehouse architecture ever undertaken, this book presents as actual habitable homes... for adults! For most of us, a treehouse brings back childhood memories and feelings of nostalgia. Incorporating unique building methods to adapt to their living arboreal environs, treehouses have undergone a few transformations in the course of their history. The paperback edition of this sumptuously illustrated volume brings together the most innovative ideas of architects and designers, through whom readers can learn to look at this very particular form of architecture in a new way. The wide variety of projects includes bedrooms with incredible views, home offices, and special gathering rooms. The book also displays exotic experimental projects in stunning settings throughout the world.

About the AuthorAlejandro Bahamn is an architect, writer, and editor. He is the author of many design and

architecture books including Mini House, Small Apartments, and Small Lofts.
