Tan Hock Beng : Tropical Resorts before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tropical Resorts:

Mass tourism has become one of the most highly developed and fastest growing industries. This lavishly photographed book examines, albeit selectively, the rise and rise of resort architecture in Southeast Asia. Many of these sumptuous enclaves, designed for an unabashedly hedonistic lifestyle, have an enigmatic presence in the pristine environments in

which they are located. This book is the first to showcase the burgeoning variety of these beguiling resorts.
