Lee Goff : Tudor Style: Tudor Revival Houses in America from 1890 to the Present before purchasing it in order to gage whether or not it would be worth my time, and all praised Tudor Style: Tudor Revival Houses in America from 1890 to the Present:

0 of 0 people found the following review helpful. Five StarsBy Ana M Abreu -VelezGood book.0 of 0 people found the following review helpful. Great Photographic ReferenceBy J. RedmondI build dollhouses as a hobby and I needed photos of a modern Tudor Style houses. The book was a great guide for me and allowed me to identify key elements of this style to incorporate into my design. The book helped me to create a very unique doll's house with the variations

of materials used to construct these lovely homes. Although I have finished the exterior, I still enjoy looking through the book for other ideas such as landscaping and interior design. It was a great book for my needs. 0 of 0 people found the following review helpful. Great Reference Book By Tracers Great book for anyone who is building a new house in the Tudor style.

The Tudor house is one of America's keystones-- a type of home that has attracted homeowners for more than a century. Its basic elements-- the steep gabled roofs, mullioned windows made of leaded glass, and half-timbering-- are instantly recognizable and iconic. "Tudor Style" showcases the wide variety of Tudor homes and how American Tudor style differs from their English counterparts. Renowned photographer Paul Rocheleau and architectural historian Lee Goff have traveled across the United States, from the suburbs of metropolitan New York to Lake Forest, Illinois, from St. Louis to Los Angeles, capturing the unique Tudor styles each geographic location offers. The Tudors featured in the book range from modest homes to grand estates, making this a perfectly accessible book for all Tudor homeowners and aficionados. In addition to displaying the architectural structures of these buildings, Goff examined the history of these houses, why they became so popular in the United States, and what their appeal is today. The first book ever on this wildly popular style, "Tudor Style" will delight architecture enthusiasts who have been desperately waiting for a book on this favorite architectural style.

About the Author Lee Goff is a historic preservationist, writer, and photographer. In addition to writing articles on preservation technology. She is a member of the planning committee of the Municipal Arts Society, an advocacy organization concerned with New York City's quality of life and its planning, design, and architecture. She is the author of *Stone Built* and *Stone Houses*.
