**Wholesale Sash Door and Blind Manufacturers' Assn : Turn-of-the-Century Decorative Millwork** before purchasing it in order to gage whether or not it would be worth my time, and all praised Turn-of-the-Century Decorative Millwork:

Just glancing through the book, it seemed quite detailed.46 of 47 people found the following review helpful. Excellent ref. to historically accurate millwork from 1902By winters@missouri.eduNote: This book and "The Victorian Design Book" (ISBN 0-9691019-6-1, A Complete Guide to Victorian House Trim) are

both reprints of the "Universal Design Book, Chicago". Both contain listings adopted by the Wholesale Sash, Door and Blind Manufacturers' Association. This book is a reprint from a 1902 price listing, "The Victorian Design Book" is from a 1903 price listing, but both appear to match in price. Both books, while organized slightly differently do appear to contain the same items, illustrations and prices, with very little difference in content. While both books use some color, "The Victorian Design Book" has additional color plates where the "Turn of the Century Decorative Millwork" uses black and white. Either book would be an excellent reference for historically accurate millwork from 1902-1903 (but you won't need both).

Excellent reproduction of rare catalog provides fascinating glimpse into building and decorative styles of nearly 100 years ago. Over 1,300 detailed illustrations from porch and indoor balusters, ornate fireplace mantels and embossed mouldings to newel posts, store fronts and furniture for churches. Includes descriptions, prices and dimensions.
