clarkThis is volume 2 of Charles Holtzapffel's classic directory on woodturning and related skills, written in the mid
1800'sIt still has all the information needed on these subjects.0 of 0 people found the following review helpful.
Ornmental TurningBy William E ChurlikThis s one of the fundememntal books for Ornamental Turning. My work is
moving in this direction now. Great shipping.

Volume II was written in 1846 and covers the construction, action, and application of cutting tools and the machines
derived from hand tools. This reproduction of the 1875 edition contains over 700 illustrations with detailed
explanations of the various types of chisels, planes and plane irons, tools used for turning, and boring, screw cutting,
saws (including sharpening and cutting teeth), files, shears and punches, screw cutting apparatus, vises, spindles, and
planing and shaping machines. An invaluable reference, once again available.
