S. F. Krar, J. W. Oswald : Turning Technology: Engine and Turret Lathes before purchasing it in order to gage whether or not it would be worth my time, and all praised Turning Technology: Engine and Turret Lathes:

0 of 0 people found the following review helpful. Clear and BasicBy BobThis is a school training book; it contains solid basic information clearly presented0 of 0 people found the following review helpful. A good textbook for the beginnerBy R. PaineI had gotten the book from the public library and liked it, so I searched and found it thru .It is basically a school textbook, and it is good for beginners, which I am. I will definitely be keeping it on the workshop bookshelf.

Book by Krar, S. F., Oswald, J. W.
