Linda Durbano, Marni Kissel, Mechelle Christian : Two-Hour Window Treatments before purchasing it in order to gage whether or not it would be worth my time, and all praised Two-Hour Window Treatments:

I tried to research this book the best I could, (the only thing I did not do was to physically go to a bookstore and look through it, which as I have a seriously disabling illness it is very difficult for me to get out much). I do approximately 90-95% of all of our shopping online, so I am used to making purchases online. I felt that the title of this book "Two-Hour Window Treatments" lends one to believe that there would be instructions within the book itself. I was amazed at how few instructions were included. The book has good bones, it is a shame that the title leads one to believe something that isn't so. I agree the price on this book was very fair for what it offers,

it is just that once again, the title suggests it offers differently than it does. I would suggest within the description that there be a notation that if one is looking for instructions for window treatments ... then this is NOT THE BOOK FOR THEM, however, if they are looking for ideas ... IT IS LOADED WITH PHOTOS FROM COVER TO COVER!4 of 5 people found the following review helpful. transform your house with easeBy A CustomerI bought this book because it looked easy to use. I am not very creative and thought it would give me some good ideas on how to make my home look warm. In a very short time I was able to make my house a home. This book is wonderful and very easy to follow, so easy even I did it. I would highly recommend this book to anyone who just wants to have a good time with there home decor. With Christmas right around the corner I have bought several copies for friends. Have a good time with this one..Thanks

With the help of three skilled designers, create miraculous designs to transform your windows. The enjoyable chatty trio dispense professional advice on what makes a window treatment successful; salvaging old treatments; turning windows into inside d?cor; incorporating special hardware (like horseshoes and stars); using natural light - and what to do with a room with no view. And, of course, there's everything you want to know on fantastic fabrics, no-sew styles, tassels, ties and more!

From Library JournalLuke provides instructions for various window treatments such as lined drapes and shades, but her instructions could have been more detailed, with more illustrations and explanations of more styles. The strength of this book lies in Luke's recommending when to use a particular window treatment or fabric with regard to view, light, and style. Although Durbano's book gives few project instructions, the variety of easy window treatments depicted in color photographs, in materials and styles ranging from elegantly draped sheer swags to whimsical cut-off jeans curtains, will give amateur and expert crafters a wealth of ideas.
