**John McPherson, Geri McPherson : Ultimate Guide to Wilderness Living: Surviving with Nothing But Your Bare Hands and What You Find in the Woods** before purchasing it in order to gage whether or not it would be

worth my time, and all praised *Ultimate Guide to Wilderness Living: Surviving with Nothing But Your Bare Hands and What You Find in the Woods*:

4 of 4 people found the following review helpful. Very disappointing but better than most of the other primitive authors that make ...By TKFrustrating reading. The black and white photos at time were too small and unclear. Their writing style all over the place. A how to book should be progressive and sequential.. step by step.. not oh yeah another thing. Get to the point, an outline possibly, then itemize step by step would have been appreciate it. Very disappointing but better than most of the other primitive authors that make a fun topic academic. Good try but this is their third book. They haven't figured it out yet? Update and get color photos with higher resolution and offer larger photos presented in sequence with the text.0 of 0 people found the following review helpful. A must for any Bushcrafter!By Stan Dhave wanted this book for a long time; happy to get it at such a great price. Full of useful information. A must for any Bushcrafter!1 of 1 people found the following review helpful. A superb book on primitive survival skills.By CustomerI bought the original 'Naked into the Wilderness'almost 20 years ago. At that time it was the only book I had read that explained the skills in it to a level that allowed you to go out and successfully practice them.The photos might be showing their age but they are still more than capable of educating the reader on the basics of skills being shown.I applaud the McPhersons for making this book available to a wider audience. When I purchased the original through a local specialist bookshop I had to pay through the nose and wait months for it to arrive. When I purchased this new printing I paid a fraction of the price and got it in a two weeks!Now I can put my much loved, ragged, stained and worn original copy into retirement on the shelf and throw this shiny new copy into my pack for the next couple of decades.If you want to learn to survive in the wilderness with nothing, read this book then practice everything in it until you have successfully mastered each technique your way.I can't recommend this book highly enough. Get it!

EVERYTHING THERE IS TO KNOW ABOUT SURVIVING IN THE WILDDuring my first years of learning survival I took a course in survival and primitive earth skills taught by John and Geri McPherson. I was excited by their unbelievable passion and their intrinsic understanding of survival. Their teachings took me from understanding basic skills to a full-blown love for the ancient technologies that humans developed to survive. John and Geri are the real deal. They dont just teach this stuff, they live it. I loved the experience with them so much I came back a second time a few years later. Now that I have traveled the world as Survivormanexperiencing and filming survival in every ecosystem there isI can sit back and watch my shows and see John and Geris teachings peek through in every situation. I have been able to understand survival because of John and Geri, and can highly recommend this book. -- Les Stroud, AKA SurvivormanPacked with in-depth instruction and photos, *Ultimate Guide to Wilderness Living* teaches you the skills need to survive and live in the wild using only those things found in the woods. Learn how to:Ignite a fire with a two-stick hand drillErect temporary and semi-permanent

About the AuthorMarried for over 20 years, John Geri McPherson live on 46 acres of undeveloped land in the flinthills of Kansas. Everything man made on their property has been done by them. They have taught many members of the military Special Operations Forces including A-Teams, Rangers, and Seals. Twice a year, they run a special class on strictly primitive wilderness living survival skills for instructors from the US Army's Special Warfare Command's S.E.R.E. survival school.
