1 of 1 people found the following review helpful. A note from the author's daughterBy Cynthia LunaI am this author's daughter. I remember the period of time when he wrote this book in the early '60s, dictating to my mother who transcribed his words in long hand on 3-ring binder paper. I remember the technical sketches he'd done in pencil on 8x11 typing paper, sheets strewn around his big oak desk. At 5 years old, I once reached for a tack hammer on his desk that turned out to be a sketch of a tack hammer! His illustrations are wonderful. I don't need you to buy this book, but I thought it would be nice to share some history. Here we are in the 2014s and we can do that - we can reminisce about our beloved pasts together and come to know eachother in an unexpected way. If you do buy this book to guide you through a real upholstery project, know that my father was a master and his instructions follow. If you follow them you will do fine. In fact, more than fine. Good luck!
