Very good book to use to get started.

Thanks to a "growing" interest in the local food movement, self-sustainability, as well as health and money-saving concerns, vegetable gardening is more popular than ever. Using full-color, step-by-step examples, Idiot's Guides: Vegetable Gardening covers all of the techniques and tools needed for every type of garden, including small plot, raised bed, container, and vertical. Ideal for all types of gardeners whether they live in a rural, suburban, or urban

setting content includes planning, soil preparation, pest control, maintenance, harvesting, and much more!
