Invaluable book for vegetable gardenersBy Jeff M.Very informative book. Far better than most books currently being marketed.2 of 2 people found the following review helpful. Great Book...a keeper!By A. WondolkowskiThis is a great book,one of the best I have seen as a Advanced Master Gardener. Its also used in our extension vegetable growing classes as a text book. Easy on the eyes,laid out nice,easy to read with good graphics and very informative but not over bearing. Lots of great information that you can't find in other books.
