Ricardo Rendon Garcini : Vida cotidiana en las haciendas de Mexico/ Daily Life in the Haciendas of Mexico (Spanish Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Vida cotidiana en las haciendas de Mexico/ Daily Life in the Haciendas of Mexico (Spanish Edition):

1 of 1 people found the following review helpful. wonderful! beautifully photographed, wonderfully written. must have for the coffee table.By archfanThis is the companion book to Haciendas de Mexico. That book gives an overview of select haciendas and concentrates on the exterior of the estates. This one tells a story of the daily life in a Hacienda. Still features the haciendas covered in the first book, but gives more insight into the daily workings of these plantation estates. More pictures of the interiors and history provided. All two books are excellent and worth purchasing as a set. Photography is first rate, lush, and the text is very informative. Much better than similar coffee books produced by rizzoli or abrams. Shame these books are not produced as often. Two gorgeous books great for the library. Puts the reader in the hacienda state of mind. Wonderful daydreaming materials and instill the reader an urge to travel and stay in one of these incredible estates in Mexico. One of my best book purchases.0 of 0 people found the following review helpful. Estos libros son una belleza de las haciendas de Mexico ...By Mario E FalfanEstos libros son una belleza de
