Walter Reeves : Virginia Fruit and Vegetable Book (Southern Fruit and Vegetable Books) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Virginia Fruit and Vegetable Book (Southern Fruit and Vegetable Books):

1 of 1 people found the following review helpful. DisappointingBy MAYI should have paid more attention to the previous reviewer who said it's not about VA. It is not. There is some prefatory info about VA, but most of the book (so far) is general to the south. There are occasional bits of info useful to me but it doesn't help with VA's very wide range of growing conditions, even in the same places.
