**Susan M. Winchip : Visual Culture in the Built Environment: A Global Perspective** before purchasing it in order to gage whether or not it would be worth my time, and all praised Visual Culture in the Built Environment: A Global Perspective:

0 of 0 people found the following review helpful. Good StuffBy Josh WilcoxThis book has explained a lot to me related to my major. The readings are easy and the number of figures and moments in time used seems endless.This is some good school stuff for sure. Buy this book.0 of 0 people found the following review helpful. Five StarsBy Mary Ann ThornamWonderful!

Visual Culture in the Built Environment: A Global Perspective provides an integrated survey of global interior environments and architecture, explaining significant design styles and movements from the mid-19th century to the

present day. In addition to learning the characteristics and designers of a particular style or movement, students will learn how and why interior environments and architecture develop, including the impact of cultural and political events. In reflecting the emerging field of Visual Culture studies, this textbook expands upon traditional approaches to studying the history of interior environments and architecture by presenting content within the global interdisciplinary context of the arts, politics, technology, business, and economics.

From the Inside Flap Visual Culture in the Built Environment: A Global Perspective provides an integrated survey of global interior environments and architecture explaining significant design styles and movements from the mid-19th Century to the present day. In addition to learning the characteristics and designers of a particular style or movement, students will learn how and why interior environments and architecture develop, including the impact of cultural and political events. In reflecting the emerging field of Visual Culture studies, this textbook expands upon traditional approaches to studying the history of interior environments and architecture by presenting content within the global interdisciplinary context of the arts, politics, technology, business, and economics. About the Author Susan M. Winchip is a professor of interior and environmental design in the Department of Family and Consumer Sciences at Illinois State University.
