**Better Homes and Gardens : Water Gardens, Pools, Streams Fountains (Better Homes and Gardens Gardening)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Water Gardens, Pools, Streams Fountains (Better Homes and Gardens Gardening):

0 of 0 people found the following review helpful. Five StarsBy CustomerLOVE IT! Use it as a great resource...11 of 11 people found the following review helpful. Pictures are good but missing detailsBy Old CustomerAfter readign the other reviews I purchased this book. I am very disappointed. I had a lot of questions and this book failed to answer them. It is not very detailed or complete. I found the book "Waterfalls, Ponds and Streams" to be much more detailed and complete. It provides much better quidance in building a pond and stream.0 of 0 people found the following review helpful. Nice textbook perfect condition Thank YouBy LJNice textbookperfect conditionThank You!

Gardening enthusiasts need to look no further than this complete guide to all aspects of water gardens, including sections on pools, fountains, waterfalls, streams, and rain gardens.
