2 of 2 people found the following review helpful. Where can I find these? I thought By Linda1 small format page per plant with picture of almost half the page, zone, plant height and breadth, uninspired design ideas, usually related plants. In a book with plant in the title did not expect so many trees. The varieties named for my zone largely unavailable in local nurseries, so was not much use. Good effort though. 0 of 0 people found the following review helpful. Decent xeric book. By Teresa N Great book for an overall xeriscape including other continents. 0 of 0 people found the following review helpful. ... as a retirement gift) and she appreciated it a great deal.
