Stefan Gabanyi : Whisk(E)Y before purchasing it in order to gage whether or not it would be worth my time, and all praised Whisk(E)Y:

0 of 0 people found the following review helpful. Great resource for the intellectually-invested drinkerBy Pen NameGreat little book for both amateur and professional whisk(e)y drinkers. For major distilleries, this may not be as helpful as some other books because it has only a small blurb about each producer. However, for odd labels, IBs, and lesser-known distilleries, this is an excellent resource. While some info is a little dated, for me, I like that it provides the owner, house style, and commonly found IB bottlings for places like Strathisla or Mortlach. Also includes some glossary terms that I find helpful with enough history to help the interested reader understand its importance to

whisk(e)y: i.e. what "Small Batch" bourbon is (or isn't) and how the term helped to reshape bourbon's image globally. 0 of 0 people found the following review helpful. Three Stars By SR Well done, but a bit out dated 0 of 0 people found the following review helpful. Four Stars By mandy Gift

The traditional whisk(e)y-producing nations are Scotland and Canada, where the spelling is "whisky," and Ireland and the United States, where it is spelled "whiskey." Featuring more than 1,000 entries covering every conceivable topic on whisk(e)ys from around the world, Whisk(e)y is the comprehensive handbook for the whisk(e)y aficionado and novice alike.

.com The history of whiskey is shrouded in some mystery. First produced in the Middle Ages, it has gained a worldwide audience and is produced from Ireland to India. For the whiskey connoisseur, no library would be complete without this fascinating look at the world of whiskey (as it is spelled in Ireland and the United States--Scotland and Canada spell it "whisky"). With more than 1,000 entries on everything from individual brands to the history of single-malt scotch, Whisk(e)y will appeal to aficionados and novices alike. Language Notes Text: English (translation) Original Language: German From the Inside Flap The traditional whisk(e)y-producing nations are Scotland and Canada, where the spelling is "whisky," and Ireland and the United States, where it is spelled "whiskey." Featuring more than 1,000 entries covering every conceivable topic on whisk(e)ys from around the world, Whisk(e)y is the comprehensive handbook for the whisk(e)y aficionado and novice alike. Stefan Gabanyi's fascinating text presents information alphabetically by subject, including both the traditional and new whisk(e)y-producing regions of the world, different types of whisk(e)y, production methods, distillers, bottlers, parent companies, and individual brands--from single malts and classic blends to increasingly popular single-barrel bourbons. The intriguing history of whisk(e)y is woven throughout, as is the most up-to-date information, including the most recent developments in the industry and a complete listing of brands and companies by country. With so much information, and more than 500 charming illustrations by Gunter Mattei, this handsome volume is a must-have for all whisk(e)y lovers.
