From BooklistThis is the newest volume in Running Press' delightful Garden Flower series. With more than 100 color photographs and illustrations, the book describes a variety of plants suitable for ponds and marshes; for semishade and damp shade; for rocks, screens, and drystone walls; for sunny, moist meadows; for dry, sunny grasslands; and for cultivated borders. There are chapters on the history of wildflowers and on their care and cultivation. Poetry relating to wild flowers adds to the paperback's charm. George^R^I Cohen
